A breathtaking View

See this breathtaking view of the beach of Ghajn Tuffieħa to the left? See how the view is ruined by the eyesore of the abandoned building built next to it? There are many of these buildings scattered around Malta. Sometimes massive plots of land which were bought and built are abandoned due to various reasons. Whatever the cause, the result is the same: empty buildings which remain there for countless years. These half-finished buildings are many times vandalised and are very unappealing to the eye.
