

THE UNTIDY BEACH

Can you imagine going for a swim in the sea and you find lots of garbage and no fish ? Well, that is what is going to happen if all of the people around Malta are going to put garbage in seas... The problem in Malta is huge because of the rubbish. Plastic can be useful to people but to fish, turtles and other sea creatures can be really dangerous. In Ghajn tuffieha in MALTA tons of garbage was found.. When you realise that garbage is doing so much damage to the seas and the fish it might be too late so.. We need to start **cleaning up our mess** and **use disposal bins**.
